French/Patio Doors

Open up your room and let the light pour in with a choice of either French doors or a Patio door.

French doors are extremely popular, giving an airy spacious feel to your room, as well as the extra benefit of excellent access as both doors open .

The in-line sliding patio door is easy to operate with fixed pane and another that simply slides back to open. A further option is the tilt and slide patio door which not only offers lockable ventilation but with the turn of a handle the door slides open.

Above: Shows tilt and slide patio in 'tilt' position allowing ventilation.
